Bearer Ring Oil for the Printing Press

Part of the XCP™ Press Protection range, XCP™ Bearer Ring Oil is especially designed to meet the highest performance requirements of the printing industry's most advanced machines. XCP™ Bearer Ring Oil is a unique blend of mineral, synthetic and bio-oils formulated to provide the highest standards in **corrosion protection, anti-wear and lubrication.**

XCP™ Press Protection products are trusted by printing houses around the world to protect and maintain their printing presses and pressroom equipment. XCP™ Press Protection products help extend the lifespan of the press, allowing the printer to maximise capital investments.

Benefits of comprehensive press maintenance include:

- Higher residual values
- Improved press reliability
- Reduced risks of press downtime
